Summary

I am seeking a dynamic and challenging role in a forward-thinking organization where I can apply my skills and hands-on experience to support growth and innovation. As a passionate Computer Science Engineering graduate with training in Python Full-Stack development and a strong understanding of core programming concepts, I am eager to contribute to meaningful projects while continuing to learn and grow professionally.

Projects

Restaurant Table Booking & Ordering System

- Developed a restaurant management system with QR code-based menu browsing, table reservations and food ordering features.
- Developed features for managing menu items, categories, pricing and billing.
- Technologies used: Python-Django Framework, HTML, CSS, JavaScript, Bootstrap.

Room Rental Management System

- Built a web-based room rental management system that allows property owners to list rooms and renters to book them.
- Implemented user authentication, property listing, booking management and payment processing.
- Technologies used: Python-Django Framework, HTML, CSS, JavaScript.

Facebook-Instagram Clone, Personal Portfolio websites

- Designed and developed responsive social media clone website using Django framework.
- Technologies used: Python-Django Framework, HTML, CSS, JavaScript, Bootstrap.

Tamper Resistant IoT Evidence Storage System (College Project)

- Developed a blockchain-based digital evidence storage solution using IPFS for secure and tamper proof data storage.
- Implemented private cloud infrastructure for easy evidence sharing.
- Technologies used: Blockchain, IPFS, Cloud Computing, Hashing, Python.

Education

SCMS School of Engineering and Technology

Bachelor of Technology - Computer Science Engineering (2020 – 2023)
Cgpa – 7.32

Govt.Polytechnic College Kunnampalam

Diploma in Computer Engineering (2017 – 2020)
Cgpa – 7.3

St. Antony's Higher Secondary School, Pudukad

Higher Secondary Examination (2015 – 2017)

Training/Certifications

Python Full-Stack Development - Techmindz, Infopark, Kochi (Dec 2023 – May 2024)

- Gained hands-on experience in Python, Django Framework, HTML, CSS, JavaScript, MySQL, REST APIs and front end technologies.

Web Designing Training - Keltron, Trivandrum (Nov 2021, 1 week)

- Learned UI/UX fundamentals, HTML, CSS and JavaScript.

Technical Skills

- Programming Languages – Python, Java
- Web Development – HTML, CSS, JavaScript, Bootstrap
- Database Management – MySQL
- Version Control – Git, GitHub
- Python Full-Stack Development
- Understanding of SDLC and Agile principles

Soft Skills

- Ability to work with team and as an individual
- Highly responsible and committed to tasks
- Attention to detail
- Solution focused mind set
- Leadership qualities
- Adaptability

Languages

- English
- Malayalam
- Hindi
